INFORMATION PAPER

SUBJECT: Support to the State of Hawaii Department of Transportation, Hawaii

1. Purpose: To provide information on the subject project.
2. Points of Major Interest and Facts.

a. The State of Hawaii, Department of Transportation (DOT), Highways Division is currently utilizing the services of the Honolulu District to execute designs, engineering studies, and construction support services through Architect-Engineer contracts. Work initially began with Highways Division in fiscal year 1997 under authorities granted by the Intergovernmental Cooperation Act and the Economy Act. Projects have expanded to Airports Division and Harbors Division throughout the State of Hawaii.

b. Projects within the County of Hawaii include designing road-resurfacing projects, investigation and design of repair to roadway drain culverts, modifications to bridges, repairs to DOT facilities, mapping and inventory of highway assets, and construction management/support services for State Highways and Airports Division contracts.

c. Summary:

<u>FY</u>	<u>No. of Projects</u>	<u>Funded Amount (000)</u>
98	6	\$ 3,284
99	12	\$ 3,376
00	8	\$ 1,190
01	0	n/a
02	7	\$ 1,760
Total	33	\$ 9,520

3. Congressional Interest. There is minimal Congressional interest in this project, at this time.
